Road Trip Country

# Goldfields Air Services

Goldfields Air Services (GAS) offers the best view over the 'Super Pit' and the outback landscape of Kalgoorlie-Boulder.

Our experienced and professional pilots operate personalised flights from our hangar located on the eastern side of Kalgoorlie-Boulder airport.

GAS operate to anywhere in Australia from our base at Kalgoorlie-Boulder Airport, with the majority of flights being to remote outback locations not serviced by other forms of regular transport.

GAS has Commercial pilots on standby 24 hours a day to respond to your air transport requirements

# Key Experiences

## **Big Pit Scenic Flights**

Fly over the city of Kalgoorlie-Boulder, taking in the Graham Marsh designed Kalgoorlie Golf Course, Karlkurla Park and Hannan Street with its impressive gold-plated dome clocktower.

Then head out over the spectacular Kalgoorlie Consolidated Gold Mines "Super Pit." Visible from space, at over 3.5km long, 1.5km wide, and 600 metres deep, the Super Pit is truly something to behold. After circling the Super pit to get an all-angles view, you will fly out to the Nickel Smelter.

## **Lake Lefroy including Big Pit Scenic Flight**

Fly over the city of Kalgoorlie-Boulder, taking in the amazing Graham Marsh Kalgoorlie Golf Course, Karlkurla Park, and Hannan Street before flying over the spectacular "Super Pit".

You'll then fly to the Nickel Smelter before continuing to Kambalda and Lake Lefroy, one of the area's magnificent salt lakes and popular for land sailing. Depending on conditions, there can be a shallow layer of water on the lake bed, which on a calm day creates breath-taking reflections that will give you the opportunity to take award-winning photographs.
